

Jin Shin Jyutsu®

*Pulse whispers the secrets of the Universe*

- Mary Burmeister

## **Hearing the Song, Dance, Vision, Anatomy, Mathematics and Magic of the Pulse**

*Recognizing the 9 Depths Within and All Around Me*

**A Special Topic Class with Cynthia Broshi**

**May 1 - 3, 2015 (Friday -Sunday) in Berkeley, CA**

**The Pulse** we listen to in Jin Shin Jyutsu is the Breath of Creation. In it we hear the “how”, “what”, “where”, “who” NOW of the creation of a unique, living Being. Working with this energy of Creation is the simple answer to the question, **“Which flow should I use?” The Pulse speaks of Cause and Harmonizer.**

**Awareness and Understanding** of the Pulse is a lifetime study. Yet all of us, regardless of our experience, can hear in it exactly what we need to hear. We will study the pulse with our senses: touch, taste, sight, smell, hearing, intuition; we’ll use our intellect, imagination and our bodies to **recognize the feels and rhythms of the 9 Depths given in Text 1 & 2.** The simplest ways to recognize these is to find them in our surroundings. Each day will include a treasure-walk outdoors, hunting the Depths.

**Miraculously**, as tiny children, we learn to understand and use language. Before I began worrying about getting it right, confusion was a wonder-land! In this class we will practice getting back to enjoying our not-knowing. This is where the window of awareness opens. With fun exercises that flex the muscles of all our senses, we’ll **expand the boundaries of our awareness** and our Imaginative Intelligence.

**Bustline, Waistline, Hipline... Safety Energy Locks... the Depths... Organ Function Energy... the physical body...**all are speaking within the Pulse. We’ll tune into these expressions one at a time, translating the Breath of Life into the language Mary gives us in Text 1 and 2. We’ll listen to the relationships that are forming the **body**, the invisible consciousness (**mind**) and the soul’s journey of Unfolding (**spirit**). We’ll listen to our lives being born.

**Jin Shin Jyutsu JS** listening to the **Harmony**. Through lots of Pulse-listening practice, daily self-help and hands-on sessions, we’ll share three days of lovingly and respectfully getting to KNOW the beautiful music WE IS.
